Mayor Pappas Announces Ground Breaking Event for Ivy Lea Construction

NORTH TONAWANDA - Mayor Arthur G. Pappas, along with members of the Common Council, representatives of Lumber City Development Corporation and key officials of Ivy Lea Construction will gather at 765 Walck Rd. near the intersection of Zimmerman St. on Thursday, May 26, 2016 at 10:30 A.M. to celebrate the commencement of construction for the new home of Ivy Lea Construction.

"I welcome Ivy Lea Construction here to the City of North Tonawanda," said Mayor Pappas. "This company has been a mainstay in Western New York for many years in home improvement. We are much honored to have such a successful company choosing our city in providing jobs and strengthening business within the community."

Ivy Lea Construction is a 2nd generation, family owned construction company, currently based in the Town of Tonawanda and has been since 1987. The new building itself will consist of 10,000 square feet of office and warehouse space supporting 40 employees.

"Ivy Lea Construction is excited to build a new company headquarters in North Tonawanda in 2016," said Mike Washington, President of Ivy Lea Construction. "The City has been very welcoming and supportive of our company and we're looking forward to becoming members of this community. The growth we see in North Tonawanda is very exciting and Ivy Lea Construction is proud to be a part of it. We look forward to a long run of being the leading home improvement company in all of Western NY based in the City of North Tonawanda!"

The \$1,000,000 project will be built on vacant property purchased from the City of North Tonawanda. It is important to acknowledge the Niagara County Industrial Development Agencies support in the project by authorizing \$100,153 in total incentives for the PILOT program.
